Separation Anxiety

Stephanie L. Brown

14 Worrisome And Costly Behaviors!

The path leads to Separation Anxiety. Find out here if your relationship with your dog is on the path.

Does your pet experience overwhelming insecurity?

Does your dog bark or howl when you close the door to go to work?

What are the symptoms of Separation Anxiety?

Are you interested in finding out?

Please take a look at some of the symptoms of Separation Anxiety listed below. This will help you determine if you are potentially building a path of Separation Anxiety. It will also help you define the likeliness of Separation Anxiety in your home.

- Barking
- Howling
- Chewing
- Digging
- Trembling
- Pawing at the door or window
- Tearing up pillows
- Ripping the blinds off the window
- Tearing up the curtains
- Destruction
- Pacing
- Escaping
- Coprophagia (eating of poop)
- Neighbors calling you for your dog's behavior when you are gone.

If you checked off 2-4 symptoms, then maybe you can help your dog with a few little changes. If you checked 5-8 symptoms, then you and your dog can definitely benefit from some professional help. But, if you check 8 plus symptoms then your dog and you could truly benefit from the guidance and understanding of a professional experienced with Separation Anxiety.

How much does tolerance of a fixable condition cost you? How many curtains, pillows and plants need to be replaced before you are ready to make some changes? Are you ready to walk away from a very challenging behavior which has left you the pet parent at a loss; and loving dog a trembling ball of insecurity?

Stephanie L. Brown, Ph.D. is an animal communicator ready and willing to help you. She believes you and your dog are ready to take the steps to be healthy, happy and confident. You have the power to help your dog! You can build a path away from frustration and tolerance to happiness and confidence. The first step is to **click here** and find out what is available to you and your dog.
